PROGRAMME
Dear beloved friends and colleagues,

We would be delighted if you could join us at the 3rd Annual Assembly of the Malaysian Association for Bronchology and Interventional Pulmonology (MABIP) which is organised in collaboration with the Ministry of Health Malaysia and Serdang Hospital on October 3–5, 2017 at Le Meridien Putrajaya, Malaysia. Following the success of the 2nd Annual Assembly in Kota Kinabalu, Sabah last year, this annual event returns to Serdang, the venue of the 1st Annual Assembly. The MABIP Board, Scientific Committee and local Organising Committee led by Dr Rosmadi Ismail are working very hard to prepare a high quality Assembly.

This year marks the 10th Anniversary of the first Malaysian Interventional Bronchoscopy course held on September 12-13, 2007. Therefore, we promise to make this year’s event ‘special’. 2007 was also the year that saw the release of the first iPhone. As they say, great minds think alike and so many thanks to those pioneers in 2007 who introduced interventional pulmonology to Malaysia. As always, the MABIP Annual Assembly is a conference that integrates and blends interventional pulmonology with general pulmonology, thoracic surgery, radiology, oncology and pathology. Besides plenaries, symposia, hands-on workshop and free papers, we will also see live cases broadcast from the Operating Room Serdang Hospital to the delegates in Le Meridien.

This year’s Annual Assembly will see participation of prominent members of the Malaysian Association for Thoracic and Cardiovascular Surgery (MATCVS) and American Association for Bronchology and Interventional Pulmonology (AABIP) besides local speakers. We are also inviting our colleagues from gastroenterology, rheumatology and radiology to reflect the multidisciplinary nature of the Assembly.

For the first time also, we will have a pre-Assembly workshop at Serdang Hospital aimed at pulmonary fellows, junior physicians and general physicians who do basic bronchoscopy. In addition to the usual bronchoscopy topics, the workshop will also cover interstitial lung disease and pulmonary physiology.

At the end of the Assembly, we trust that you will return home with up-to-date knowledge and skills besides nice memories and friendships. We look forward to you attending the 3rd Annual MABIP Assembly.

Thank You.

Jamalul
Dear Friends and Colleagues,

On behalf of the organising committee, I am honored to welcome you to the 3rd Annual Assembly of the Malaysian Association for Bronchology and Interventional Pulmonology, (MABIP 2017), which will be held on 3rd – 5th October 2017 in Le Meridien Hotel Putrajaya, IOI Resort City, Putrajaya, the administrative capital of Malaysia.

Fresh from the success of MABIP 2016 in Sabah, once again, the Scientific Committee have put together a very comprehensive programme encompassing a wide variety of interesting topics as well as live cases and practical hands-on sessions.

This year, MABIP 2017 will start with a pre-Assembly workshop that covers a wide variety of basic bronchology and interventional pulmonology topics on the 3rd October. The Annual Assembly on the 4th and 5th October will feature various symposia, plenary lectures, live-cases, free paper presentation and hands-on sessions.

Esteemed local and overseas speakers have been lined up to delve into various topics from interventional pulmonology, radiology, thoracic surgery, pathology as well as industry-sponsored and pharmaceutical topics. The Assembly will not only be intellectually fulfilling, but it will also be socially satisfying as delegates will be entertained during the pool side BBQ Gala dinner and there will be ample opportunity for networking among the delegates.

We welcome you to MABIP 2017 which we hope will enhance your knowledge and skills, build up network for future collaboration as well as enable you to meet up with old friends and make new oneS. Look forward to seeing you in Putrajaya.

Thank You

Rosmadi
